Frontend Developer

I am a frontend developer with over 2 years of experience creating responsive websites and web applications using React.js, JavaScript, and TypeScript. My goal is to create user-friendly, visually appealing websites that work well on all devices.

I focus on writing clean code, optimizing performance, and ensuring a smooth user experience. I love solving problems, working in teams, and always learning new web development skills.

Skills

Languages & Frameworks:

React.js, Next.js, JavaScript (ES6+), TypeScript

Styling & UI:

Tailwind CSS, CSS3, SCSS, Bootstrap, WordPress

State Management:

Redux, React Context API

Performance & Optimization:

SEO, Web Accessibility, Lazy Loading

APIs & Backend:

REST APIs, Firebase

Tools & Collaboration:

Git, GitHub, Chrome DevTools, Agile (Jira, Trello)

Work Experience

Frontend Developer | Freelance Remote | 2023 - Present)

- Built responsive websites for various clients, ensuring fast load times and smooth user experiences.

- Developed a personal portfolio website to showcase skills and projects.

- Gained expertise in React.js, JavaScript, and TypeScript through real-world projects.

- Collaborated with clients to understand their needs and deliver custom web solutions.

Frontend Developer Intern | Andela (Remote | 2023)

- Worked on real-world projects with a professional team.

- Built reusable components and improved frontend performance using React.js.

- Participated in Agile sprints and used Git for version control.

Frontend Developer Intern | TechHub Nigeria (Lagos, Nigeria | 2024)

- Assisted in building and optimizing websites for local businesses.

- Worked with senior developers to improve website speed and functionality.

- Gained hands-on experience with React.js, WordPress, and web performance optimization.

Open Source Contributor | GitHub & Online Communities (Remote | 2023 - Present)

- Contributed to open-source projects by fixing bugs and adding new features.

- Refactored code to make it more maintainable.

- Engaged with developer communities to learn and share knowledge.

Projects

Hotel Website (React.js, Vite & Tailwind CSS)

- Built a modern, animated hotel booking site with a responsive layout.

- Implemented a structured navigation bar, services section, and contact form.

- Used lazy loading for performance improvement.

E-commerce Store (React.js, TypeScript, Firebase)

- Developed an online store with product filtering, cart functionality, and user authentication.

- Integrated Firebase for real-time database management.

Restaurant Website (React.js, Vite and CSS)

- Designed restaurant websites with interactive menus and booking features.

- Focused on mobile responsiveness and fluid animations using React.js and CSS.

Portfolio Website

- Created a portfolio website featuring light/dark mode and smooth navigation.

- Optimized for performance, accessibility, and modern design standards.

Education & Certifications

Bachelor's Degree in Banking and Finance

Ambrose Alli University (AAU) | 2018

Certifications:

- Frontend Web Development — Codecademy (2024)

- JavaScript & React.js — FreeCodeCamp.org (2024)

- Responsive Web Design — FreeCodeCamp.org

Languages & Additional Info

Languages:

Fluent in English

Interests:

Web development, UI/UX design, open-source collaboration, and exploring new technologies.

Strengths:

Problem-solving, teamwork, adaptability, and attention to detail.

Why Hire Me?

- Skilled in React.js, TypeScript, Tailwind CSS, and WordPress

- Proven experience building business, restaurant, and portfolio websites

- Committed to writing clean, scalable, and maintainable code

- Collaborative, proactive, and always eager to learn

Let's Connect!

I am actively open to new opportunities. If you're hiring, I'd love to discuss how I can contribute to your team.
